To: South-Central Kentucky Manufacturers  
Re: Mason Security – Your Solution to Employee Theft, Vandalism and Burglary

The Mason Security company is a member in good standing with the Kentucky Association of Manufacturers (KAM). Because employee theft, vandalism and burglary are costing Kentucky manufacturers millions of dollars, hurting their ability to compete globally, KAM is out to do all we can to help you reduce these expenses.

Mason Security is operated by professionals who have provided security for the U.S. Military. They are currently providing security services for U.S. Government facilities, including the FBI. This experience also can help you protect your facility from the threat of terrorism.

When Ron or Ted Mason call on you, please let them explain how Mason Security can help you lower your security costs while increasing the professionalism of your security operation. If Mason Security is good enough to provide security for the FBI, we believe they're more than good enough to provide security for Kentucky manufacturers.

Thank you for your consideration and for giving Mason Security a chance to handle your security. Please feel free to call me if you have any questions or comments.

Regards,
